

AICF FELLOWS

Research for Life® Fellow, in Memory of Ennio Arengi,
formerly Chairman of Fidia, for his contribution to
pharmaceutical research over the past 45 years
Dana-Farber Cancer Institute

Originating Institution:
University of Genoa

Michele Cea, MD

Investigating the role of NAD⁺ and NAD⁺
dependent enzymes in multiple melanoma

Kenneth C. Anderson, MD, Mentor

"The American-Italian Cancer Foundation Fellowship represents an important opportunity to perform my research project. I will meet leading scientists in haematologic research and obtain all the professional skills essential for making a big step forward in the knowledge and cure of haematologic malignancies. The AICF Fellowship will give me all the tools I need to become an excellent scientific investigator."
